Subject: Safe, Simple, Mobile Lunch Solutions For Schools
Date: 16 September 2020 at 11:44
To: Anthony Wilkinson Anthony.Wilkinson@pastaking.co.uk

Pasta King provides a nutritional lunchtime solution during Covid-19, offering schools in the UK and Ireland a safer, more economical catering option as the new academic year resumes.

ANY PLACE, ANY SPACE

The carts are space-saving, mobile culinary points that can be parked anywhere; from hallways to outdoor areas providing there is a power socket. They use an 'any place, any space' approach.

The whole operation takes just one person to prepare and serve food for up to 180 pupils per hour.

Schools can choose to purchase, hire or borrow (depending on volume) a Pasta King cart which is able to serve up to 180 diners per hour, efficiently and at speed in a Grab-and-Go format.

We offer a range of healthy meal options that balance carbohydrates and protein as well as healthy fats and other nutritional requirements, we also provide disposable, compostable cutlery and containers.

HOW IT WORKS

We supply everything you'll need; attractive point of sale material, branded Pasta King pasta bar(s) with free installation and maintenance, plus Pasta King pots to serve. We also supply the baskets, spoons and ladles free too. Each time you order one of our fully finished, ready-to-use pasta sauces, it comes with the right amount of dried pasta, rice or noodles free of charge.

The sauces can be delivered chilled or frozen.
